HANGING BY NECK MAN DEFIES MOB

**SUSPECTED OF COMPLICITY IN
ABDUCTION AND MURDER, MIS-
SOURIAN DEFIES WOULD-BE
LYNCHERS.**

SPRINGFIELD, MO., June 11.—Certainty of death from mob bent on lynching him for suspected complicity in the abduction and murder of fourteen-month-old Lloyd Keet did not frighten C. J. Piersol into confessing a part of the crime.

He and his five fellow prisoners were taken from the custody of Sheriff Webb at Stockton, forty miles northwest of here, early yesterday by a mob of forty-five outraged Springfield citizens who had, for more than twenty-four hours, raced in automobiles to overtake the Sheriff who was hastening his prisoners to safety in the State prison at Jefferson City.

When the mob reached Stockton, the Sheriff made a strong plea with the mob that justice be allowed to take its course, but the leaders insisted upon possessing Piersol from whom they believed they might extort a confession.

With a rope around his neck, according to reports reaching the Sheriff's office, Piersol was led to a tree and given an opportunity to confess. Stoutly denying his guilt, the prisoner was swung from the ground and hanged until he was black in the face. Then his captors lowered him and offered him one more chance for life. Piersol insisted upon not only his innocence but that of the four men and one woman, who also were prisoners. The mob pulled the rope again declaring that he would die anyhow, but Piersol remained silent.

Sheriff Webb again pleaded with the mob and the swinging man was released, the mob leaders declaring they did not intend to hang an innocent man, but that they did not intend to let Piersol go until they were satisfied of a reasonable doubt of his guilt. Piersol was given back to the Sheriff's custody and the mob dispersed.

DON'T BE A SLACKER!

Don't be one of the most detestable class repudiated by all—the slackers! Buy Liberty Loan Bonds, and show your real patriotism. If you are not going to the firing line, put the ammunition in the hands of those who will go. The Liberty Loan Bond will help. Do your bit!

BACK FROM CANUCK LAND.

Mr. Clark Wilson, who recently became a member of the Canadian Aviator Corps, with headquarters in Windsor, Canada, arrived in Paris, Friday, on a thirty-days' furlough to visit his parents, Mr. and Mrs. David Wilson.

Mr. Wilson has been in a Windsor Hospital for the past ten days, threatened with typhoid fever. At the end of his furlough he will return to Windsor and resume his duties as air pilot on one of the big Canadian fliers.

MERCHANTS' ASSOCIATION HERE TODAY.

The fourth annual meeting of the Central Kentucky Retail Merchants' Association will be held in the court house in this city to-day, convening for the opening session at 10:30 a. m. Arrangements have been completed for entertaining the delegates, expected to be about 250 in number. Dinner luncheon will be served at the Hotel Windsor at noon. The program in full was published in a recent issue of THE NEWS.

PARIS BANK TAKES \$100,000 LIB- ERTY BONDS.

Practically one-third of the allotment of the Liberty Loan Bonds made for Bourbon County, \$100,000, has been subscribed for by the Bourbon-Agricultural Bank & Trust Company of Paris, for itself and its friends.

This is a proud distinction for one financial institution to have, and speaks well for the patriotic impulses of the officials and directors.

BEE SHIPMENT OF FRANKLIN CARS.

The number of Franklin cars shipped from the factory in May, showed an increase of April of 86%. At the same time, unfilled orders increased to a total of 2,200, equivalent to nine weeks' production.

The retail value of the Franklin Company's May shipments was \$2,040,580, by far the largest month's business in the history of the Company.

WEATHER AND CANNON FIRE

Scientific and lay minds are alike puzzled by weather conditions the world over. This puzzlement has been increasing for thirty-three months or thereabouts, since the outbreak of the European war, in fact. Some venture the opinion that the war operations are affecting the weather conditions, while others are just as positive that cannon fire has nothing to do with the situation.

Those holding to the first theory argue that if rainy, stormy weather followed months after explosions of the volcanoes of Mt. Pele, Mt. Katmai and Krakatoa, the thirty-three months of almost continuous cannonading in Mesopotamia, Palestine, Turkey, Russia, the Balkans, Austria and France must have the same consequences as that ascribed to the volcanoes—the freeing of clouds of dust-particles to be carried into the upper air currents and disarranging them as well as the lower atmosphere. If they are right, then the war operations by creating freak weather are responsible for the bad crop conditions all over the world.

For some days recently the skies of lower Michigan were darkened and the sun shone with a sickly glare through the rifts. Some have blamed forest fires in Wexford, Missaukee, Iron and Gogebic counties for this condition, recalling the palls of smoke which for days overhung the Michigan peninsula during the forest fire periods of 1871 and 1881. This explanation, if true, would bolster up the theories of those who think the European war is wrecking the world's weather and crops.

Of two schools of thought in the United States weather bureau one has repudiated with scorn the idea that cannon fire in Europe can affect weather in America or anywhere else. But the layman, mindful of the mistaken predictions of the weathermen and fact that weather prognostication is a wonderfully inexact science, goes right on speculating on what effect an armistice would have on the weather.—Detroit Free Press.

CALL ON THOS. P. WOODS FOR COUNCILMAN.

Many Democrats of the Fifth Ward would like for Mr. Thos. P. Woods to announce for Councilman from the Fifth Ward. We promise you our help and support, knowing from your past record of honest services and efforts to give the taxpayers the best for their money, that you would be the man for the place.

FLOWER MISSION DAY.

"Flower Mission Day," an event in this city and county that always brings joy and gladness to the hearts of the "shut-ins" was observed last Saturday by visits of the members of the W. C. T. U. of the city and county to the inmates of the county jail and the County Infirmary. The Paris, Little Rock, North Middletown and Millersburg unions joined in the observance of the day.

At the County Infirmary religious services were held in the big dining room. Mr. A. L. Boatright, of the Paris Christian church, sang a number of beautiful solos, which delighted his hearers.

After the services refreshments were served to the old people, and each one was given a bunch of flowers with a Scripture text card. The visitors from Millersburg were Mrs. P. L. Dimmitt, Rev. and Mrs. J. D. Redd, Rev. and Mrs. A. S. Venable and Rev. Goldsmith; from Little Rock, Rev. and Mrs. C. H. Caswell, Mrs. Ada Reid, Mrs. Maxwell, Mrs. Johnson and Mrs. B. M. Roberts; from Paris, Mr. and Mrs. A. L. Boatright, Mrs. Belle Brown and Mrs. William Myall.

MILLING COMPANY SUES ICE COMPANY.

The Paris Milling Company has filed suit in the office of Circuit Court Clerk Wm. H. Webb, against the Paris Ice Manufacturing Company, asking damages in the sum of \$10,000.

The plaintiff company alleges that it is owner of the dam placed across Stoner Creek near its milling property for the purpose of holding back the waters of the creek for use as motive power in its flour mill, and that the defendant Ice Company without legal right, ran a number of pipes in the stream, and is, and has been, drawing water in large quantities from the creek, to the injury of the plaintiff company.

SALARIES DISTRIBUTED TO COUNTY TEACHERS.

The last installment of salaries for the school term just ended was paid out Saturday, to the teachers of the county schools by Miss Mabel Robbins, County Superintendent of Schools, at her office in the court house.

WHEAT CROP BELOW NORMAL

**ACCORDING TO FORECAST OF THE
THE DEPARTMENT OF AGRI-
CULTURE, YIELD WILL FALL
SHORT OF LAST YEAR.**

WASHINGTON, June 11.—America's wheat crop, as forecast by the Department of Agriculture, will fall far below normal, despite the prospects for a more than ordinary yield of spring wheat.

A total yield estimated at 656,000,000 bushels, will give the country 16,000,000 more bushels than last year's crop, but with the heavy demands from abroad and virtually no reserve supply, it will not meet war needs unless the country practices the most rigid economy. The department forecasts a spring crop of 233,000,000 bushels, a big yield, but estimates of winter wheat production give an estimate of only 373,000,000 bushels, 71,000,000 more than was forecast from the May 1 conditions, but still far from the normal yield.

LEXINGTON, KY., June 11.—One of eighteen United States Army colonels to be promoted to brigadier-generals by President Wilson, was Colonel Henry T. Allen, formerly of Sharpsburg, Bath county, and well known in this city. Colonel Allen is the brother of F. S. Allen, president of the Sharpsburg Bank, and is a particular friend of General Roger D. Williams, of Lexington, commanding the Kentucky brigade.

LONDON, June 11.—Headed by Major General John J. Pershing, the first representatives of the American army that are to enter the European war, disembarked Friday morning at a British port after an uneventful voyage of ten days on board the White Star Liner Baltic.

The party was received with full military honors and immediately entrained for London, where it arrived safely, and was welcomed by the Earl of Derby, the minister of war, Viscount French, commander of the British home forces, and the American officials.

PETROGRAD, June 11.—Two hundred girl students of the Petrograd Technical Institute have entered their names on the roll of a female regiment which is being raised by Ensign Butchkareff. The aim is immediately to start for the front and to fight under all respects under the same conditions as men.

Scores of girls and women, anxious to fight, appeared at the offices of the League of Equal Rights for Women, which has expressed its favor of Lieutenant Butchkareff's plan.

WASHINGTON, June 11.—Secretary Daniels has issued this statement:

"The Navy Department has reason to believe that information of a character most valuable to the enemy and which might prove most disastrous to the navy has in some way reached the enemy."

CARD FROM MR. JOHN MERRINGER.

I am profoundly grateful to the friends who made the recent call upon me to become a candidate for Councilman from the First Ward of the city of Paris, as I am convinced they were actuated by honest motives in so doing.

After having given the matter careful consideration and thought and following consultations with friends whose advice I know to be good, I have concluded to accept the call and become a candidate for the position. In this I am moved by the prime consideration of serving the city as Councilman as a business man, and to represent to the best of my ability, those who would have me as a member of the City Council. I shall strive to do right, to pass up "peanut politics," and aim to make my candidacy as decent and honorable as my own business relations with the people of Paris have been.

JOHN MERRINGER.

J. O. U. A. M. MEETING.

The first nomination for officers for Bourbon Council No. 127, Junior Order of American Mechanics, will be made in the lodge room to-night. All members of the order are urgently requested to attend. The members of the local Chapter will go to Lexington on Sunday, where they will unite with the Lexington Chapter in holding memorial services for their deceased members.

BOURBON CIRCUIT COURT.

The June term of the Bourbon Circuit Court will begin on Monday, June 18. Friday was the last day for filing suits which will be heard at this term.

PRESIDENT HONORS FORMER KENTUCKIAN.

Another Kentuckian was honored by President Wilson, on Friday, when Col. Henry T. Allen, formerly of Sharpsburg, Ky., was created a brigadier-general, according to the President's orders.

General Allen graduated from West Point in 1882, and has made an enviable reputation for himself in the army. He is a close friend of General Roger Williams, commander of the Kentucky brigade, and a brother of Mr. J. G. Allen, the well-known Millersburg merchant. His brother, F. S. Allen, is the president of the Sharpsburg Bank, and General Allen is an uncle of Mrs. J. M. Pickerell, of Winchester, being a brother of Mrs. Pickerell's mother.

PASTORS TELL FROM PULPITS OF LIBERTY BONDS.

Pastors of the various Paris churches announced to their congregations at the morning services Sunday that \$250,000 of the \$300,000 allotment of Liberty Loan Bonds for Bourbon county had been subscribed, and urging them to use their influence and earnest efforts to raise the remaining \$50,000 at once, if possible. It was also requested that intending purchasers of these bonds should consult Mr. Arthur B. Hancock.

It was also stated by the pastors in connection with this movement that the members of the Bourbon County Red Cross Association would ask for the sum of \$15,000 to aid in their relief work.

AGED VETERAN PASSES THROUGH.

The Mt. Sterling Sentinel-Democrat says:

"Captain Lot D. Young, of Bourbon county, aged 75 years, passed through the city Sunday on his road to Washington to attend the Confederate reunion which met there this week.

"Captain Young was one of Morgan's Men, and expects to see Secretary of War Baker and tender his services in behalf of his country, in whatever position he may be placed. "He stands 6½ feet and was dressed in his Confederate uniform, and is a typical Kentuckian, full of enthusiasm and patriotism and ready to take up arms and fight till the end."

EDITORIAL MUSINGS.

Using the Dimmers.

We've a complaint from a Bourbon county reader that is deserving of attention, because it is justified, and we feel sure that many will, once their attention is called to it, agree fully with the complainant and act accordingly.

The reader referred to declares that too many machines traversing the rural districts and passing through the smaller towns are either not equipped with dimmers for their lights, or, if they have such attachment, it is not properly used. Many of them are high-power electric lights and people driving in approaching vehicles are frequently forced to shield their eyes from the glare with their arms and take chances on their horse straying too far off the side of the road or not getting out far enough to clear the autos. In small towns, too, pedestrians are blinded and confused by strong auto headlights, and horses hitched to racks along the street are made to back them on the sidewalks in their attempt to escape the glare, thus endangering those who may be on the sidewalks, as well as injuring the animal and the vehicle to which it is hitched.

There is no need in arguing that the reader who files this complaint hasn't just cause for doing so. We know that he has, and we believe that ninety per cent. of our citizens know that it is true. There is a common understanding, a sort of a courtesy of the road that autos are to dim their lights as they approach. The good driver and the sensible driver still observes it. There really appears to be no good reason for giving any citizen in Bourbon county cause for making a complaint of this kind.

Where They Stand.

Quite a number of the colored citizens of Paris are at this time interested in the military training camp for their race now opening at Des Moines, Iowa. And they are equally as much interested in the conscription activities. Last Tuesday saw them responsive to their country's call, for not only in this section, but throughout the entire country their desire to fight for the flag that shields them is as great as that of any other race.

Roscoe Conkling Simmons, one of the best known colored residents of Louisville, and incidentally one of the best orators in the country, who is to address the graduating class of the Western High School in this city to-night, recently expressed the position of the American negro during the present crisis in a splendid way when he said:

"I would rather be an American negro, trusting my case to the growing justice of the American white man; I would rather be an American negro, eating bread of hope and drinking waters from the spring of faith, waving above me the Stars and Stripes, than feast from the plates of gold in the palace of a King."

Simmons has truly spoken the sentiment of his race. He has spoken that which is in the hearts of the men who were in the thick of the fray at San Juan Hill, and who held up their end of the fighting wherever placed in the Spanish-American struggle. Simmons has the same faith in "the growing justice of the

American white man" that will be noticeable throughout this great war, and a justice that will continue to grow by reason of the valiant part the American negro is going to take in it.

THE MAN AND HIS JOB.

In the American Magazine Herman Schneider, dean of the school of engineering of the University of Cincinnati, who has devoted his life to a study of human ability and fitting the right job to the right man, says:

"There is a new psychology of work. One of its most inspiring principles is that the man who makes a failure on one job is likely to make a success of the job of an opposing type, assuming, of course, that he fails in the face of real effort. This is the significance of failure: It points the way to an occupation which means success. Failure to a willing man is merely misplacement on his job. Failure at one job is not a calamity; it is an indication. Every failure is a gulldepost to success."

"Fortunately some employers are beginning to understand this. When a man fails in one job they shift him to another of an opposite type. And if the worker is not lazy or dishonest he usually succeeds. No foreman should be allowed to discharge a man. He should merely report to a central office that the man is not successful on his particular kind of work. In another department he may break records. To fire a man who has failed at one job is poor business. The shifting of failures means the making of success."

"BUSINESS AS USUAL."

"Business As Usual" should be the patriotic slogan of every citizen of Paris and Bourbon county, for with a continuation of the city's, county's, State's and Nation's business in their regular and accustomed channels, we can pay our war costs and still have plenty left over to aid our Allies.

The billions of dollars of money to be expended in war preparations will be put into circulation in our own country, and this in itself will create a new wealth for use in the world-struggle for humanity and relief from oppression and Germanism.

The one thing that might halt business now is an unpatriotic psychological feeling of panic and a false idea of patriotic economy.

Patriotic economy means the elimination of waste and extravagance. It means the conservation of our food products, our natural wealth, our health, our energies, our labor, our very lives. It means putting more efficiency into everything we do so that each unit of money, energy and intelligence may accomplish the very utmost.

Patriotic economy does not mean the lowering of America's standard of living, which would make us less efficient physically and mentally, nationally and individually, and would kill the spirit and will to do the truly self-sacrificing things to be done.

Citizens of Paris and Bourbon county, let's be patriots and do our share by keeping "Business As Usual."

HIS JOB.

(By Amelia Josephine Burr of the Vigilantes.)

"I didn't raise my boy to be a soldier—

The nations ought to arbitrate, I say—

But I couldn't face my son if I made him leave undone

His bit to help America to-day.

Though I couldn't bear to think of him in battle,

And it's terrible to trust him to the sea,

I'll give him with a will where he doesn't have to kill.

Is there nothing for my boy and me?"

There's a call for him that's louder every minute;

There's a hungry world that he can help to feed.

There's a fight without a gun that is waiting for your son

Where the enemy's the vermin and the weed.

If you didn't raise your boy to be a soldier,

If you didn't raise your boy to be a shirk,

Here's a job for head and hand—

Send him out to till the land;

What's the matter with a farmer's work?

—Amelia Josephine Burr.

ADVANCE IN HOSPITAL X-RAY.

The X-ray has become indispensable to the modern surgeon, and improvements are always being made upon it. A recent one is a device which, after revealing the location of an injury or diseased spot enables the surgeon to keep it in sight as he operates. A frame work going around the surgeon's head is fitted with a fluoroscope—an instrument by means of which objects revealed by the X-rays are made visible to the human eye. The patient is placed on a special operating table with the X-ray turned on and the surgeon can work easily, since he sees what is before him continually instead of having to work gropingly from the remembrance of what was revealed in the X-ray photograph.

He is a mean man who will let a woman marry him for his money and then show her that he hasn't a dollar to his name.

GEN. PERSHING IN ENGLAND.

A BRITISH PORT, June 11.—Major General John J. Pershing, commander of the first American expeditionary force to France has arrived in England, accompanied by his staff.

He reported a pleasant trip, and expressed the utmost astonishment that the news of his departure had been successfully suppressed.

"I thought the whole world knew about my leaving the United States," he said.

Pershing and his party were given a tremendous ovation.

"We are glad to be the standard bearers of our country in the great war of civilization," Pershing said.

"To land on British soil and receive such a welcome is very significant—and deeply appreciated."

"We expect soon to be playing our part, and I hope it will be a very large part."

Pershing and his staff worked hard all the way across preparing plans for their work in France.

Included in Pershing's party was his staff and detachments of engineers and nurses. Distinguished British army and navy officers met them here with the warmest welcome.

TUBERCULOSIS PATIENTS NEED NOT DESPAIR.

During a State-wide survey in Michigan it was shown by an analysis of 2,957 cases studied that the majority of cases of tuberculosis existing in a section at any given time will recover completely if they receive proper care at sanatoria, hospitals and at home, and that these patients need not necessarily at any time be a danger to persons around them. Fifty-seven per cent. recovered without at any time being infectious. The Kentucky Board of Tuberculosis Commissioners in doing all in its power to inform the people that no longer must those with tuberculosis despair if they will follow the treatment which study and science suggests and which experience has shown to be beneficial.

CIVIL SERVICE EXAMINATION FOR TYPEWRITERS.

Announcement is made by the United States Civil Service Commission that a competitive examination for typewriters for government service will be held in Lexington on June 27. Both men and women, who have attained the age of eighteen are eligible, and the usual entrance salary for these positions is from \$900 to \$1,000 a year.

The duties of the position are of a clerical nature, requiring ability to use the typewriter. A large number of vacancies exist, the circular of the civil service department says, at

Hello, Grandma!
We're All Well,
How Are You?

It is a joyous moment for the distant grandparent when she hears the voice of her favorite youngster on the Long Distance Bell Telephone.

Children who cannot write can use the Bell Telephone with ease, and their small voices over the wires give assurance to loved ones that all is well.

The Long Distance Bell Telephone plays an important part in the social life of the nation. Without leaving your home you can visit satisfactorily with relatives or friends in distant cities.

The service is fine; the rates are reasonable.

(col2-137)

THE NEIGHBORHOOD MEDDLER

Most neighborhoods have her. She is the most noticeable feature of the landscape. She is always on the job. It matters not that the job is self-assumed, she never sleeps on it.

She is frequently the widow of some man whom the community held in high esteem. In a moment of fatal weakness he annexed her to his life, and very soon that life became worthless to him and he was glad to lay it down.

Since worrying him into his grave, her ambition seems to be to send him plenty of company for fear he may become lonesome, deprived as he is of her presence.

Nothing is begun, carried on or completed without her meddlesome interference. She knows the full history of every man, woman and child for miles around, and if an ill-timed breath of scandal is needed to wither and destroy a promising career, she furnishes it with glee.

Having long since parted with any youthful charms she may have once possessed, the possession of attractiveness in the young people seems to fill her withered heart with gall. The boys of the community are all trifling and vicious, the girls weak and silly. Their mothers and fathers are no better, and really one cannot imagine what the world is coming to.

No affair of community or family life is too big or too little for her meddlesome tongue to dip into. She annoys us, but we tolerate her. She nags us, but we bear it. At times she almost runs us crazy, but we endure it.

And there is no remedy, no recourse.

Yes, there is one. Dr. Ossler suggested it, and was frowned out of court. But, honestly, when contemplating the tyrannical rule of this community meddler we sometimes wonder if the world was not too severe on the Doctor.

WHOOPIING COUGH.

In this disease it is important that the cough be kept loose and expectoration easy, which can be done by giving Chamberlain's Cough Remedy. Mrs. J. H. Martin, Peru, Ind., writes, "My two daughters had whooping cough. I gave them Chamberlain's Cough Remedy, and it worked like a charm."

SCORES ATTEST TANLAC MERIT

Kentuckians Place Stamp of Approval on Tanlac.

HAS ENVIABLE REPUTATION

When a medicine is vouched for by hundreds in a state like Kentucky there can be no doubt as to its merits. Kentuckians are not easily led to make public statements about anything. They are inclined to test a remedy thoroughly before placing their O. K. on it.

Therefore Tanlac's originators are proud to point to the hundreds of testimonials given voluntarily by people of the Blue Grass State. Here are a few of the statements:

EDWARDS—Mrs. Belle Phillips: "I suffered from nervousness and loss of appetite. Needed something to build me up. Tanlac brought back my appetite and gave me rest at night."

OLATON—Mrs. Belle Daniel: "Was troubled with my stomach for several years and was all run down. I have used three bottles of Tanlac and am now feeling much better. My appetite has come back and I have already gained 15 pounds."

CLEATON—Mrs. Sue Bobbitt: "I suffered from rheumatic pains, sick stomach, headaches and nervousness, but since taking Tanlac my health in general has improved. I think it is a fine medicine."

CARLISLE—Mrs. Millie D. Laughlin: "I was weak, nervous and restless before I started taking Tanlac, but now I have my strength back and am able to do my own housework again."

MALT—Mrs. Mary L. Howell: "Headaches, backaches and nervousness, caused by disordered stomach and kidneys, undermined me until I was completely run down. Tanlac, however, has me on the road back to health and I expect to be all right in a short time."

PENICK—W. G. Mays: "Food soured on my stomach and I suffered from heartburn. I was weak and didn't seem to have any ambition. Tanlac has toned up my stomach and strengthened me all around."

Tanlac has built up thousands of people in this state. If you are run down in health get it today, as it will do the same for you.

Tanlac can now be bought here from Varden & Son.

WIRELESS FOR WOMEN

The fact that a large number of women in the war zone are rendering valuable service as wireless operators, has emphasized the fact that wireless telegraphy is a vocation to which women can easily adapt themselves. Miss Katherine Parkin, of San Rafael, Cal., recently received a first grade radio operator's license from the United States Government. She is only fifteen years old, and in her third year of high school. Miss Granelia Parker, of Florida, is the first woman to act as universal operator. She is in charge of the radio set of the Clyde liner Mohawk. When the Navy Department recently issued its country-wide call for wireless operators who would be available in time of war, a large number of women answered, among them social leaders in several cities. Wireless operating was an important branch of the work of the Women's Preparedness Camps during the past summer and a number of competent operators are available as a result.

GERMAN SPY WAS GIVEN A WELCOME.

Notwithstanding the fact that Glasgow, Ky., is far inland and considered a remote little city, it was recently visited by a real German spy, who came there in the disguise of a tramp singer. He gave his name as Lewis, and said he was walking from Louisville to the gulf coast on a wager. Soon after arriving he met some of the prominent musicians of the town. Such a perfectly trained voice did he possess that the Music Club invited him to sing before them and he did. He was asked by some of the ladies to change his tramp clothes, but begged them to let him wear the ones he had on, as he said he was not allowed to change.

Recently Rev. I. D. Knight, pastor of the Baptist church, attended the Baptist Convention in Birmingham, Ala., and while there learned that the foreigner who captured Glasgow by his wonderful voice was in prison, charged with being a German spy. Sewed in the lining of his clothing were found papers and specifications of every bridge covering the entire route of the L. & N. railroad, and the Jackson highway.

CHOLERA MOREUS.

This is a very painful and dangerous disease. In almost every neighborhood someone has died from it before medicine could be obtained or a physician summoned. The right way is to have a bottle of Chamberlain's Colic and Diarrhoea Remedy in the house so as to be prepared for it. Mrs. Charles Edeyart, Huntington, Ind., writes: "During the summer of 1911 two of my children were taken sick with cholera morbus. I used Chamberlain's Colic and Diarrhoea Remedy and it gave them immediate relief."

PRIVILEGE, NOT REQUIREMENT.

Some confusion has arisen relative to the privilege granted to subscribers for one \$50 or one \$100 bond to pay the full amount in full and delivery of an interim certificate at the earliest possible moment.

It should be clearly understood that this is a privilege and not a requirement. The subscriber for one \$50 bond or one \$100 bond may avail himself of this privilege of full payment, or he may pay 2 per cent upon application and the balance as provided for other bonds; that is, 18 per cent on June 28, 20 per cent on July 30, 30 per cent on August 15, and 30 per cent on August 30.

The subscriber, therefore, for a \$50 bond or a \$100 bond has the assured certainty of obtaining a bond either by the cash payment in full or the payment in the stated installment. Subscribers for larger amounts will have to await the allotment when all the subscriptions are in and may not obtain the full amount of bonds subscribed for.

LIBERTY BONDS ARE DIRECT GOVERNMENT OBLIGATIONS

Secretary of the Treasury McAdoo makes the following statement:

"A number of letters have been recently received at the Treasury Department inquiring whether or not the Liberty Loan Bonds are obligations of the United States Government. I am surprised that there should be any misunderstanding on this point. The Liberty Bonds are United States Government Bonds. They are the direct obligations of the United States Government and the honor and the resources of the American people are security therefor. They are called Liberty Bonds because their proceeds are to be dedicated to the cause of human liberty."

MAN WHO DISAPPEARED SUD- DENLY RETURNS.

After a long absence, during which he was numbered in the category of those who had "mysteriously disappeared," Mr. W. W. Talbott, who left Paris about March 1, has returned here.

The sudden and mysterious disappearance of Mr. Talbott gave rise to many speculations as to its cause, though none satisfactory was evoked and no trace of him was found. He was rather reticent about his travels in the interval between his "disappearance" and his reappearance, but merely stated that he had been in Indiana, and that it was nobody's business but his own. And there the chapter ended abruptly.

NOTED ORATOR TO ADDRESS PUPILS.

The graduating class of the Western High School in this city, will be addressed at their Commencement exercises, to be held in the Grand Opera House to-night, at eight o'clock, by the noted colored orator, Roscoe Conkling Simmons.

Two sections of the right hand side of the lower floor will be reserved for white people.

VAGRANTS FINED.

Sentences and fines in varying degrees were imposed on seven negroes in the County Court, arrested by officers on vagrancy charges. Russell Brooks was dismissed; John Kellis, dismissed; M. Scruggs, case passed; Henry Haves, \$10 and costs, and a motion for new trial granted; Arch Cullister, case passed; Breck Armstrong, \$10 and costs; Ed Kane, \$10 and costs. The men were all arrested in the colored suburb of Claysville.

ATTEND MEETING OF REBEKAH LODGE.

The banquet given in Cynthiana last week by the members of the Cynthiana Rebekahs lodge was attended by the following members of Paris Rebekah Lodge No. 7: Mr. James Templin, Miss Ava Neal, Miss Hattie Neal, Mr. W. A. Lall, Mr. and Mrs. A. R. Dennison, Mr. and Mrs. Dora Scott, Mrs. J. M. Snyder, Miss Anna Hutchcraft, Miss Ewalt and Mrs. Lall.

EPWORTH LEAGUE CLOSSES A SUCCESSFUL YEAR.

The Paris Epworth League brought to a close a successful year's work in its closing business session for the year 1916-17 Sunday night at the Methodist church.

The meeting was presided over by Mr. Dennis V. Snapp, president of the Paris Chapter, and about fifty members were present. The following new members were received: Mrs. Janie Current, Miss Dorothy Tingle, Miss Olivia Orr, Mrs. Walter Mastin, Mr. Purnell Mastin.

The various officers filed their reports for the year as follows:

Department of Spiritual Work—Number meetings held, 52; number additions to church, 1; special meetings held, 1; number calendar days held, 1. Miss Sara Power, Superintendent.

Department of Social Service—Number of visits to sick, 411; number lunches, bouquets, clothing dispensed, 138; money expended, \$1.10. Mrs. S. T. Chipley, Superintendent.

Department of Recreation and Culture—Number socials held, 12; number Era subscribers, 22. Mrs. James Grinnell, Jr., Superintendent.

Department of Missions—Number meetings held, 12; number enrolled in Mission study class, 12; books studied, 1. Miss Frances Hancock, Superintendent.

Membership—Net loss, 23; total membership, 113. Miss Vella Mastin, Secretary.

Finance—Amount paid for missions, \$63.20; amount paid for local charity, \$1.10; amount paid to local church, \$8.25; amount paid for Chapter Membership Fee, \$2.50; amount paid on Conference expenses, \$20.00; sundries, \$55.60. Total expended, \$150. Mr. Finner W. Galloway, Treasurer.

The following delegates were elected to attend the Eighth Annual Assembly of the Kentucky Conference Epworth League, which convenes in Shelbyville, Ky., June 25-28: Misses Sara Power, Mabel Galloway and Vella Mastin. Mr. Finner W. Galloway was elected as alternate.

Mr. Dennis V. Snapp, who is Secretary of the Conference, will be in attendance, and quite a number of Paris Epworthians also intend to attend the assembly. Rev. O. B. Crockett, former pastor of Paris Methodist church, now pastor at Shelbyville, will be pastor-host of the Conference.

FAREWELL TO BACHELORDOM.

A farewell supper was given at Stout's Cafe last Thursday night to Dr. Chas. G. Daugherty, by Mr. A. R. Johns, to celebrate the popular physician's retirement from the ranks of bachelorhood.

The menu consisted of Spanish stew, head lettuce a la reina, spaghetti a la Italian, and other things. Toasts were proposed and responded to, Judge Harmon Stitt and Mr. Johns demonstrating their linguistic abilities by responding in Spanish, Mexican and "United States."

The guests were Dr. Daugherty, Mr. Johns, Judge Harmon Stitt, Dr. Pay Ardery, Dr. Jas. A. Orr, Clarence M. Thomas and Courtland Leer.

Judge Stitt started something, when, after Dr. Daugherty blushing, told the assembly he had his marriage license in his pocket, the Judge arose, and pointing his finger threateningly at the Dr. exclaimed dramatically, "Espera Vd Um Momento." Mr. Johns thought the Judge was kidding him, so he replied, "Qpiero Otro, Spaghetti di Macaroni bologna." Then Dr. Daugherty, thinking perhaps the disputants had imbibed too much grapejuice punch, induced them to use the United States language, and all went well.

Y. M. C. A. CELEBRATES.

This spring an indebtedness of several thousand dollars resting upon the Bourbon County Y. M. C. A. was lifted by a very quietly-conducted campaign by a band of earnest business men and Y. M. C. A. workers, leaving the institution with a clear title.

It had been the intention to celebrate the event sometime ago, but various things happening to prevent, it was deferred until last night, when there was a glorious get-together meeting held.

Vocal and instrumental music, addresses and a delightful luncheon served under the auspices of the Women's Social Committee aiding in the work, furnished a variety of entertainment greatly enjoyed by a crowd that filled the big room to its utmost capacity.

The hours were from eight to ten. In that time the guests, who composed every grade of social and business women and young people of the city and county enjoyed themselves to the utmost.

GOES ON THE U. S. SHIP OKLAHOMA.

A postcard from Edward Fitzpatrick, formerly of THE NEWS force, who is now a member of the U. S. Navy, states that he is to be placed on the United States ship, the Oklahoma, where another Paris boy, W. O. Pennington, is also stationed.

The Paris boys are greatly pleased at the prospect of seeing active service and glad to be transferred from the routine of the training station at Norfolk, to the more agreeable work as "jackies" on board ship.

STILL BLIND!

(Contributed.)

It is comfortable enough now to be un-American, indifferent to our country's needs and even pro-German.

It is the rule now, not the exception, that those of us who are small farmers or tradesmen in the Middle-Western States have become so dwarfed in mind and soul through the pursuit of material things, that liberty, patriotism, and Americanism are only words.

The attitude of many is "let the other fellow fight, give his life and his money, it is no concern of mine."

Perhaps it will take the severest sacrifice now or later to grow a soul and spiritual understanding into the bodies and minds of men in the Middle-West.

Perhaps it will take the sight of your own son crucified, when he should have had the generous treatment of a prisoner of war. Or your daughter murdered when she should have been protected—as your own father and mother sold into slavery.

But you will understand finally what patriotism means, just as France understands.

Meanwhile Bourbon has slacked shamefully in failing to take her share of the Liberty Bonds. She is thousands short, with only two days to make good her deficit.

That deficit will be made good by patriotic men of Bourbon, but it is a chance for many to show their patriotism instead of leaving it to a few.

If you have not wholly forgotten the heritage of your pioneer ancestors, if you can yet feel the impulse of liberty-loving Anglo-Saxon blood stirring within your veins, and if you have a little money to spare—from a hundred dollars up, call up your bank and order your Liberty Bonds to-day.

BOURBON CROP CONDITIONS

The farmers and gardeners of the city and county have about come to the conclusion that the most flourishing crop they have seen so far is the weed crop, which has been growing much faster than anything else during the past week or two.

Corn has been coming up very well, although a few farmers have been compelled to plant some over again in low places and on the hillsides where the recent rains have washed them badly. Everybody on the farm has been very busy, especially those who have been engaged in setting out to-bacco plants. A great deal of plowing has been done between the showers, which have been certainly numerous. Gardens are showing up well, and nearly every truck farmer is seemingly contented with conditions, but hopeful there will be more sunshine.

The rampant creeks and branches, which have been the result of recent heavy rains, have gone down considerably in the past few days, but there is much high water yet that is capable of doing damage. The farmer takes his supper quite late these days, remaining at his work until the last ray of daylight has left him.

The harvesting of bluegrass seed, which is generally in progress about this time of the year, has been greatly retarded by the rainy weather. It is said that the crop will be very short this year. The shortage of the seed will cause a corresponding increase in price. For August delivery \$1, and in some instances \$1.10 per bushel has been offered, which indicates about sixty-five cents from the stripper, uncleaned.

B-4 FIRE Insure with W.O. HINTON & SON, Agts

SMALL FIRE.

The fire department was called to Washington street Sunday night by an alarm from Box 16. A coal oil stove in the bachelor apartments of Samuel Ellison exploded, setting fire to the room. The blaze was extinguished by the chemical with but little property damage.

Fire, wind and lightning insurance.

PARIS BOYS ENTER THE JOURNALISTIC FIELD.

Mr. Wayne Cottingham, son of Mr. and Mrs. W. A. Cottingham, of Paris, has taken a position on the editorial staff of The Kentuckian-Citizen for the summer.

Mr. J. Thornton Connell, son of Mr. and Mrs. John J. Connell, of Paris, has accepted a position as reporter on the Winchester Daily Sun, assuming his duties Friday.

Both Mr. Cottingham and Mr. Connell are students of the Department of Journalism of the University of Kentucky, at Lexington, where they pursued their studies under the tutelage of Mr. Enoch Grehan, Dean of Journalism in the University, and the brilliant paragrapher on the Lexington Herald.

Mr. Cottingham was managing editor of The Kentucky Kernel, the University publication, Mr. Connell being one of the "star" reporters on the same publication. Both are ready writers, and will make good in their new positions.

HIGH WATER INJURES MILL DAM

Impelled by the force of tons of water brought down Stoner Creek during the recent heavy rains, a big sycamore log plunged through a weak spot in the end of the Paris Milling Co.'s dam last week, tearing it out.

The section torn out is the end resting near the Louisville & Nashville embankment and leaves the rest of the structure in a weakened condition, subject to the mercy of the high winds and water. Further breaks in the dam would pour tons of water on the lowlands below, seriously damaging the crops, gardens and pastures through flooding.

The city officials, railroad officials and others have inspected the damage done to the dam, which backs up water used by the Paris Milling Company, the L. & N. pumping station, the Paris Ice Company and the Paris Water Company. The question of who should stand the expense of repairing the structure seems to be in dispute.

The people of Paris fondly hope the different companies can get together successfully on the matter of replacing the dilapidated structure with a concrete one.

NO RECEIPTS RETURNED.

Postmaster J. Walter Payne has received notification from the Postoffice Department at Washington that on and after July 1, 1917, no receipt will be taken by the Postoffice Department from the addressee upon the delivery of insured parcels to serve as a record for the office of delivery.

When a receipt is desired by the sender of an insured parcel, he should endorse the envelope or wrapper of the parcel "Receipt Desired," and the postmaster at the office of delivery will obtain a return receipt from the addressee and mail same to the sender.

This arrangement will not only expedite the delivery of insured parcels, but will simplify the mailing of same, as one less writing of the name and address of the addressee will be required of the sender. The insurance fees and the rules governing payment in loss and damage to packages will remain the same as at present.

LITTLEJOHN'S COMPANY GOES TO CYNTHIANA.

The Littlejohn's Carnival Shows, which played a very successful engagement here last week, playing to the best business for many weeks, despite threatening weather and counter attractions, left Sunday for Cynthiana, where they will be this week.

Paris always has a warm welcome for Littlejohn. It is decidedly the best and cleanest carnival attraction now before the American public.

The Grella Band, a musical organization composed of some of the best musicians now on the road, and directed by a master musician, is one of the strong attractions of the Littlejohn shows. This band plays high class music, as well as popular selections, and all rendered with a high degree of musical excellence. Grella was for many years connected with prominent bands in Lexington, and knows how to play and direct players so as to please the public.

GOOD NEWS, THIS!

The practice of buying dry goods on approval and later returning it to stores constitutes an enormous unnecessary cost, and is likely to be abolished as a war economy measure, the Commercial Economy Board of the Council of National Defense reported at Washington, Saturday. An investigation shows that returned dry goods vary from 4 to 30 per cent. of the sales, and cause many thousands of dollars of expense.

THE WEATHER.

The weather prediction for the week beginning June 10, as issued by the Weather Bureau, at Washington, is as follows:

For Ohio Valley and Tennessee: Moderate warm weather; occasional showers and thunder storms.

Showers and thunder storms have predominated on the weather card the latter part of the week. The temperature rose steadily for several days, then dropped again. Sunshine and showers have played hide and seek all the week. There has been an overabundance of rain, but the end seems not yet in sight.

LOOKING TO CLAUDE.

Will S. Kaltenbacher, the Louisville Times' political writer, says in Saturday's issue of the Times:

"In casting about for an available candidate for Speaker of the next House of Representatives, the anti-Administrationists are said to be looking in the direction of Claude M. Thomas, of Bourbon county, to head the House 'slate.' Mr. Thomas has as yet no opposition for the Democratic nomination for Representative. He is an ultra-prohibitionist and has never been regarded as having any sympathies with the present regime in power at Frankfort."

PRESIDENT ENDORSES REV. QUARLES' REGIMENT.

Rev. R. Quarles, the "Black Moody" of Paris, some time ago addressed a letter to President Wilson, asking authority to raise a regiment of colored men for service in the present crisis.

A few days ago Rev. Quarles received a reply from the President through Secretary Tumulty, thanking him for the tender and assuring him that when the call came the Quarles regiment would be taken into the service.

Rev. Quarles stated to THE NEWS man yesterday that up to date he had the names and positive pledges taken before the passage of the conscription law, of 688 able-bodied healthy colored men, all good fighters, many of whom have had military training. The only man rejected for physical disability had the trigger finger of his right hand missing.

SOCIAL AND PERSONAL.

Comings and Goings of Our People Here, There and Elsewhere.

—Miss Eleanor Clay, of Paris, is a guest of Misses Verena and Evelyn Kreamer, in Louisville.

—Miss Mary Seaton has returned to her home in Cynthiana after a visit to Mrs. J. W. Jameson.

—Miss Luna Hinton has returned to her home in Flemingsburg, after a visit to Mrs. S. E. McClanahan, in this city.

—Among the visitors in Paris, Sunday, were Mrs. George Foster, of Cynthiana, and her sister, Mrs. Carrie Evans.

—Mr. and Mrs. J. A. Stern, of the Fair Store, returned Saturday morning from an extended stay at Mt. Clemens, Michigan.

—Miss Minnie Fox, of Big Stone Gap, Va., formerly of Paris, is a guest of Miss Lucy Simms, at her home on Second street, in this city.

—Miss Daisy Hazelrigg, of Louisville, and Miss Nina Hazelrigg, of Lexington, were guests of Mrs. William R. Scott, from Saturday to Monday.

—The June meeting of the W. C. T. U. was held yesterday afternoon at 2:30 o'clock at the home of Mrs. William Myall, corner of Main and Ninth streets.

—Mrs. P. M. Heller is visiting her son, Mr. Martin Heller, at Huntington, W. V. From there she will visit relatives at her birthplace, Beunavista, Ohio.

—Mrs. Bryant Crump, Mrs. Robt. Woodward and Mrs. Don Gravitt, all of Winchester, were guests Sunday of Mr. and Mrs. John Doty, at their home in East Paris.

—Mrs. W. H. Clay, formerly of Paris, who has been very ill at her home on Woodland avenue, in Lexington, is improving, and will soon be able to be out again.

—Misses Mary Arnold and Eunice Strother, of Cynthiana, and Elizabeth Franklin, of Winchester, guests of Miss Elizabeth Clark, on South High street, for the Commencements, have returned to their respective homes.

—The pupils of Miss Alice N. Ford gave delightful recitals in piano-forte in the Auditorium of the Paris High School, Friday and Saturday evenings. All acquitted themselves very creditably. The program comprised twenty-four selections, all excellently rendered.

—Mr. and Mrs. John T. Collins have returned from a visit to their son, Mr. Wm. Collins, who is in the Officers' Reserve Corps at Ft. Benj. Harrison, near Indianapolis. They were accompanied by their daughters, Misses Marie, Mildred and Emma Louise Collins.

—Mrs. Margaret Toplin celebrated the eighty-sixth anniversary of her birth with a dinner at her home on Walker avenue Sunday. The guests present on the occasion were her daughters and granddaughter and a few intimate friends of the family, all of whom helped make the day a pleasant one.

—Among those who attended the dance given at the Lancaster Hotel, in Georgetown, last week were Misses Anna Wilson, Mary Kenney Webber and Mrs. Katherine Davis Craig; Messrs. Douglas Clay, Withers Davis, Jo Davis and G. C. Thompson, of Paris, Allen Ingels and S. A. Allen, of Millersburg.

—Mr. S. F. B. Morse, of New York, who was for many years General Passenger Agent for the old Kentucky Central railroad, now the Louisville & Nashville, was a recent visitor in Paris. Mr. Morse is pleasantly remembered by the older railroad men of Paris as a man of almost infinite jollity and good nature, and a universal favorite.

—Mr. James W. Brannin, of Cincinnati, manager of the Business Men's Club, was made the recipient of a number of handsome pieces of furniture and art bric-a-brac by the members of the Business Men's Club recently, the occasion being the celebration of his forty-fifth birthday anniversary. Mr. Brannin married Miss Marie Parrish, daughter of Mr. and Mrs. D. C. Parrish, of Paris.

—The following invitation has been received: "You are invited to attend Central Kentucky's Big Annual June Dance, Wednesday, June 20, 1917, Masonic Temple, Paris, Kentucky. EXPLORERS CALL FOR QUICK HELP.

The first detailed news from Donald B. McMillan, head of the so-called Crocker Land Expedition, announcing that he and his companions had only enough supplies to last them until August of this year, and urging that another relief ship be sent to them, was received in New York this week by Dr. Henry F. Osborne, president of the American Museum of Natural History, and chairman of the Crocker Land Company.

It was announced that the steam sailing vessel, "Neptune," chartered recently by the committee probably would sail about July 1 from Nova Scotia under command of Captain Robert A. Bartlett, for Etha.

Although the expedition has been one of the costliest on record, it is said that from a scientific viewpoint the result has fully justified the expenditure.

While Admiral Perry believes Etha proved to be a mirage the McMillan party discovered six new islands, mapped and explored Findlay Island and gathered geographical, botanical, archeological and ethnological material of great importance.

The message from McMillan, which was written about the middle of February, was transmitted through the American minister at Copenhagen by Dr. Harrison J. Hunt, of Bangor, Me., surgeon of the expedition, who left the McMillan party and reached Goghven in the Faroe Islands in company with W. Elmer Ekwald, the expedition's geologist and representative of the University of Illinois.

The message said all was well at the Etha headquarters, but that it was believed the relief ships of 1915 and 1916 failed to reach the expedition.

BILLINGS SELLS THE HARVESTER FOR \$30,100

All of the trotting horses from Curle's Neck farm, the property of C. K. Billings, were sold Thursday at auction in Madison Square Garden, in New York. Seventy horses went under the hammer for a total of \$80,100. The top price of \$30,100 was paid by Paul Kuhn, Terre Haute, Ind., for the trotting stallion, The Harvester, 2:01, after some spirited bidding.

The champion pacing colt, William 1:58 1/2, was purchased by J. K. Roush and son, of Lafayette, Ind., for \$8,000. Peter Dillon, 2:11 1/2, went to the Elm Pine Farm, Greenwich, N. Y., for \$3,900 and Rion, a Russian Orloff stallion, which was purchased in Russia for the reported price of \$20,000 by Mr. Billings, was sold for \$450.

CANDIDATES WARNED OF NEW "CORRUPT PRACTICE ACT."

It is highly important for candidates for office in Kentucky to familiarize themselves with the provisions of the "Corrupt Practice Act," passed by the Legislature of 1916.

It is compulsory that each candidate file with the County Clerk or proper official an itemized statement of expenses incurred during his campaign, such as printing, stationery, stamps, stenographers, rent for public halls for speaking, and all other expenses incurred pertaining to his election. Such papers must be filed fifteen days before the primary, and also fifteen days before the regular election.

The penalty for failing to comply with this law, is a fine in any sum not to exceed \$5,000, or to be confined in the county jail not to exceed six months, or both.

The BOURBON NEWS has been appointed as agent in Bourbon county to handle and sell the Thomas Kentucky Election Forms, which are used for this purpose. With these forms it is no trouble to keep an accurate account of expenditures, etc. These forms are reserved and protected by law by the Cadiz Record, of Cadiz, Ky.

All candidates are required to make these statements, and the easiest and best way is to purchase one of these forms now. The price is \$1.50. Come in and see one, and give us your order. We have samples to show, but will have to send in orders to Cadiz for stock. We are going to send in an order next week. Let yours come with the rest.

TRAVELED OVER APPIAN WAY

Paul and His Companions Evidently Used Famous Highway on Adventurous Journey to Rome.

"All roads lead to Rome," said a Latin proverb. When Paul and his companions, after the adventurous journey in which they suffered shipwreck on the island of Malta, landed in Italy they found brethren in Puteoli, now called Pozzuoli, near Naples, and "Were desired to tarry with them seven days;" and then the narrator of the journey says, "we went toward Rome."

Luke does not tell us by what road they traveled, but we can be sure that it was by the great Appian way, already three hundred years old, which was built by Appius Claudius, a Roman censor, from Rome to Capua, a point not very far from the port where the prisoners landed.

From Capua to Rome was a distance of 125 miles. Paul and his companions probably walked the whole distance, but were met at the Three Taverns, 17 miles from Rome, and at Appii Forum, or the market of Appius, ten miles from Rome, by delegations from the infant church in Rome.

This great highway was built of hewn stones laid in cement, and averaged about 20 feet wide. Parts of the road are still in excellent preservation.

The Three Taverns is identified by some ruins, which are pointed out to the modern tourists as the remains of the station at which Paul was met by his loving brethren from Rome, who had received news of his coming—probably by the system of posts which penetrated to all parts of the empire and resembled the modern post office, and through the Acta Diurna, or public bulletins which were a prototype of the modern newspaper.—Christian Herald.

PREJUDICE LEADS TO WRONG

Warps Our Judgment and Breeds Injustice, Unkindness and Even Cruelty, Says Writer.

Prejudice is an insidious thing. It creeps into the soul unawares. It leads us to say and do wrong things; it warps our judgment and leads to injustice, unkindness and even cruelty. Says a writer in the Milwaukee Journal. It paves the way for hatred and malice. In proportion as we learn to clear our minds of prejudice we become better men and women; we win friends and dissolve enemies; we are more worthy of respect and confidence. No one wants to be judged by false standards that prejudice sets up. Beware of judging others in such light. Prejudice cramps the mind and the heart; it stands in the way of rightful growth of character.

It is wise to search your heart, and if you find prejudice there to set about to root it out wholly. Do not be sure you of all men are unprejudiced. That is the danger; for prejudice is guarded by vanity. Seek to be just in all things, small as well as great. In all the relations of life be sure you are not judging another, not for his error but from your prejudice. For the worst thing about this weakness is that it breeds injustice and unkindness and malice. It hurts innocent folk and makes no one happier.

Cool.

There had just been a railway collision in France—a terrible wreck. It was night-time, but there was light enough to see something of the havoc and the tragedy. The prefect of the department, summoned in haste, was already on the spot organizing the work of rescue. Suddenly from one of the first-class carriages which had stayed on the rails and somehow escaped being telescoped emerged a stout man still about half-asleep. He had as yet only a very misty notion of what had happened. He had, in fact, been so deeply immersed in slumber that he had felt hardly more than a slight shock. The first thing that he saw clearly was the prefect wearing his sash of office and busy attending to the wounded. He gave an exclamation of mild surprise. For the man half-asleep was also a prefect. Almost as if he were passing the time of day with a colleague encountered by chance on the boulevards of Paris, he spoke.

"Well, well," he said, "what are you doing here?"

Looking for Bigger Game.

Bobby and his sister, Ruth, were visiting in the country. One morning, accompanied by their nurse, they went for a walk in the fields. Ruth was much afraid of snakes, and Bobby, much to her horror and disapproval, boasted that he wasn't "scared of snakes," and if he saw one he'd kill it. The words were scarcely out of the little fellow's mouth when a small garter snake glided down the path before him. Bobby, as fast as his small feet would carry him, ran in the opposite direction. Ruth and the nurse called after him, reminding him of his boasts. Bobby, without stopping, called back, "Oh, I'm not afraid of that snake, I'm just a-lookin' for a bigger one."

On Easy Conditions.

The widow sat beside the bedside of her dying friend. "Now, Susan, when you go to heaven, will you tell John that I am longing to be with him?" she said. "If I see your John I'll sure tell him," Susan said, "but if I don't I ain't a-goin' clikety-clackin' all over heaven lookin' for him."

TRIBUTE TO "ROVER"

Nearly everyone who has had business at the waiting station of the Interurban line in Paris, has seen and perhaps had a romp with "Rover," the big shepherd dog belonging to Mr. Harry Jeffers, the agent. "Rover" was so common canine, but a dog of most excellent disposition, one who made friends with all the patrons of the line.

"Rover" was a character in dogdom, and was the especial favorite and playmate of the daughter of the Jeffers household, Miss Josephine Jeffers. "Rover" had more than a common cur's education, and for this reason he was well-liked by everybody. One unlucky day the dog was killed by a policeman who thought he (the dog, not the policeman) was suffering from the rabies, and many of the patrons of the line noted the canine's absence from his usual haunts. A friend of the family, who sympathized with them, indited the following lines to the memory of "Rover," which is doggone good doggerel poetry, in the style of the late lamented Col. W. J. Lampton:

There was a dog whose name was Rover,
No common cur, tho' sheared all over;
He had a master whose name was Harry,
Who, going to office, would seldom tarry.
This dog would follow him noon and night,
And worshipped him with all his might.

The dog a number of tricks would do,
Such as carrying bundles and speaking to you.
For a piece of candy he'd walk 'round the room;
His master sheared him, alas, too soon.

This gave him cold and made him sick,
Then to the doctor they sent him quick
To get him some pills; he was better growing
'Till down the street one day not knowing

Sick dogs were not allowed on streets
He met a policeman walking his beat,
Who spied the dog going with all vim,
To the office where his master awaited him.

Thinking the dog was going mad
The policeman did then shoot the lad.
His apologies were plentiful
And no doubt well meant,
That he for another dog had sent
To take the place of this other one
Who had gone at last to his happy home.

But that kind of talk didn't ease the pain
For those who will never see "Rover" again.

THIS IS CERTAIN.

The Proof, That Paris Readers Cannot Deny.

What could furnish stronger evidence of the efficiency of any remedy than the test of time? Thousands of people testify that Doan's Kidney Pills have brought lasting results.

Home endorsement should prove undoubtedly the merit of this remedy. Years ago your friends and neighbors testified to the relief they had derived from the use of Doan's Kidney Pills. They now confirm their testimonials. They say time has completed the test.

Geo. McCandles, Second street, Paris, says: "My kidneys were inactive and I had backaches. Doan's Kidney Pills put a stop to all the trouble. They gave me complete relief." (Statement given January 17, 1912.)

NO TROUBLE SINCE.

Over four years later, or on November 9, 1916, Mr. McCandles added: "I have not had any need of a kidney remedy since I last endorsed Doan's Kidney Pills. I consider myself permanently cured."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. McCandles has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y. (adv)

MEMORIAL TO LIEUT. SAUFLEY UNVEILED.

The memorial tablet in memory of the late Lieutenant Richard Caswell Saufley, of the United States Navy, who was killed while making a fight in an aeroplane last summer at Jacksonville, Fla., was unveiled Friday at Frankfort at the Boone Day exercises held by the Kentucky State Historical Society. Mrs. Penn Leary Carroll, wife of Lieutenant Carroll, of the United States Navy, unveiled the tablet, which was presented by the classmates of Lieutenant Saufley, at the Naval Academy.

SLOAN'S LINIMENT

FOR RHEUMATISM.

The pain goes so quickly after you apply Sloan's Liniment for rheumatic pains, neuralgia, toothache, lumbago, sprains, and it is so easy to use. It quickly penetrates and soothes without rubbing and is far cleaner and more effective than musky plasters or ointments.

Keep a bottle in the house and get prompt relief, not only from all nerve-pains, but from bruises, strains, sprains, over-exercise and all external aches. At your druggist, 25c, 50c, \$1.00. (adv-june)

WHAT CAN YOU DO?

The United States has entered this war with a thrilling and convincing statement of her motives. England and France have acclaimed us as an ally whose purpose acknowledges that their tremendous sacrifices during the past three years of fighting were made in a crusade for civilization and against barbarism.

Never in our history has there been a nobler call to national duty. It brought us face to face with the debt each one of us owes, not only to our country, but to civilization. But if we are going to give substance to President Wilson's inspiring words, every patriotic man, woman and child in this country ought to do his bit, and to do it in the way in which he or she may be the most efficient.

There are so many ways now to help, that every one can find something to do—if he is willing to do it. And in the doing, many of us will acquire a conscious nationalism which we have never felt before. We will learn to look upon our flag not as a mere decoration, but as a sacred token of service.

There can be but one brand of loyalty in this country now—active support of our government's plan; and the quicker every one of us gets busy doing for the aid of our government the thing that we can do best, the sooner this war will be over and peace secured.

What can you do?—Everybody's Magazine.

NEVER NEGLECT A COLD.

A chill after bathing, cooling off suddenly after exercise and drafts, give the cold germs a foot-hold that may lead to something worse. Safety requires early treatment. Keep Dr. King's New Discovery on hand. This pleasant balsam remedy allays inflammation, soothes the cough and repairs the tissues. Better be safe than sorry. Break up the cold with Dr. King's New Discovery before it is too late. At your druggist, 50c, \$1.00.

EARTHQUAKE AND VOLCANO DESTROYS SAN SALVADOR.

SAN JUAN DEL SUR, Nicaragua, June 11.—San Salvador, the capital of the republic of Salvador, with a population of more than 60,000, has been totally destroyed, according to a dispatch from San Miguel, Salvador. No details as to the manner in which the city was destroyed have been received, but it undoubtedly was the result of an earthquake or volcanic eruption.

SOUR STOMACH.

This is a mild form of indigestion. It is usually brought on by eating too rapidly or too much, or of food not suited to your digestive organs. If you will eat slowly, masticate your food thoroughly, eat but little meat and none at all for supper, you will more than likely avoid the sour stomach without taking any medicine whatever. When you have sour stomach take one of Chamberlain's Tablets to aid digestion. (adv-june)

BRITISH CAPTURE 6,000 GERMAN.

BRITISH HEADQUARTERS IN FRANCE, June 11.—The number of prisoners reaching the collecting stations since the beginning yesterday of the new British drive in Belgium, has now reached more than 6,000. Many more prisoners are coming in.

COUGH, WHOOPING-COUGH RELIEVED.

Children's diseases demand preparedness. When the child wakes you at night gasping and strangling for breath, how thankful you are to have Dr. Bell's Pine-Tar-Honey at hand. This effective remedy loosens the mucous and permits free and natural breathing. Its soothing balsams heal the irritated membrane and arrests further inflammation. Pleasant to take. Keep Dr. Bell's Pine-Tar-Honey in the house for all colds and bronchial troubles. At your druggist, 25c. (adv-june)

BARN RAISING BY MACHINERY

Farmers are now utilizing the same methods in barn building that city contractors use in their construction work. Derricks or gin poles are used to raise the heavy materials and swing them into place. The gin pole is a sort of mast with long arms or beams provided with pulleys and ropes. An Indiana farmer recently raised a barn one hundred feet wide and one hundred and fifty feet long by this apparatus in a single afternoon. A few of his neighbors were called to assist, but the machinery adjusted all the large beams and outlined the form of the hip roof. His gin mast was operated by the combined use of his farm tractor and his Ford car.

LOADING BOATS BY PIPES.

The rich oil fields in the vicinity of Tuxpan, Mexico, have no harbor facilities and a novel scheme for filling the oil boats has been proven practical. Long pipe lines are run out into the water, with flexible rubber ends with nipples attached to them. Large buoys indicate the position of these in the water. A boat riding at anchor picks up a buoy with hose attached with signals the

LIFT YOUR CORNS OFF WITH
FINGERS.

Tells How to Loosen a Tender Corn or Callous So It Lifts Out Without Pain.

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called Freezone, which the moment a few drops are applied to any corn or callous the soreness is relieved and soon the entire corn or callous, root and all, lifts off with the fingers.

Freezone dries the moment it is applied, and simply shrivels the corn or callous without inflaming or even irritating the surrounding tissue or skin. A small bottle of Freezone will cost very little at any of the drug stores, but will positively rid one's feet of every hard or soft corn or hardened callous. If your druggist hasn't any Freezone he can get it at any wholesale drug house for you. (adv)

THE NEW COTTON COUNTRY.

In the Imperial Valley of California they are making fortunes raising cotton this year—sudden dramatic fortunes. Everything about the Imperial Valley seems to have the dramatic quality; its story would make a good moving picture. In 1900 it was a blistering desert where a buzzard could scarcely live. And then the government harnessed the Colorado River and the desert was veined with irrigating canals and ploughed and planted, and for the first time since the primordial floods subsided a tint of green and growing things spread over the valley.

Cotton arrived in 1906. It came in the shape of a box of seed under the seat of a wagon driven by a Texas homesteader. He asked why they didn't raise cotton thereabouts, and they said because it wouldn't grow. And so being from Texas, which is something like Missouri, he planted his little store of cottonseed and it came up and opened its snowy bolls to the wonderment of all beholders. Furthermore, the next year it came up and bore again without another planting.

The Texan's little cottonfield spread like a drop of butter on a hot pan. It clothed the bareness of the desert in its fleece. And it brought to the men who owned the land more hard iron dollars than ever they had seen before. There are fifty thousand acres of cotton in the Imperial Valley this year and there are going to be many more next year. And even better than the cotton crop is the human crop which this desert has borne for it is peopled by men who own their own farms and are prosperous.

GOVERNMENT URGES ECONOMY
IN STAMPS.

The thorough manner in which the National government is carrying out its proposed plans to cut down all unnecessary waste in every department is demonstrated in an official order received Saturday by Postmaster J. Walter Payne from the Post-office Department, advising him to notify patrons not to use two or more stamps on letters when one stamp of a larger denomination will suffice for the same purpose.

The communication points out that the waste incurred in materials used in making stamps would be considerably lessened if this plan were adhered to all over the country.

How often your friend thinks of you is something over which you have no control; what his thoughts are, such times, however, rests with yourself.

HEALTH AND WAR.

(Cleveland Plain Dealer.)

It is the duty of every American to take thought of how he can keep in good health. Sickness will decrease the national efficiency by just so much, whether it be among soldiers or noncombatants. Steps that will insure one against disease are among the best forms of preparedness.

Health of a nation at war or at peace depends in a large measure upon its food. A nation cannot thrive and be healthy unless it has good food and plenty of it. The mobilization of agricultural products must go hand and hand with the mobilization of factories and munitions.

Nearly half of the body building food and 70 per cent. of the sustaining food on American tables is derived from grain, according to the Life Extension Institute. These grains are to be the manufacturing industries. The wanton destruction of food is as much of a traitorous act as the destruction of arms and ammunition. In the last analysis, it is the well-fed nation that will prevail.

The housewife must be economical in the preparation of food and must cook it with skill, so that meals will be tasty and agreeable.

Vaccination against typhoid and smallpox are excellent preparedness steps. It is estimated that within the past ten years Germany has saved enough men from smallpox to offset her terrible losses at Verdun. The death toll in this country from preventable disease is far greater than any likely war losses. Fewer men were killed in the Civil War on both sides than have died from typhoid fever alone in the United States, in the last ten years.

Any effort that tends to reduce the infant mortality rate will help repair the wastages of war.

IMPROVED SHOW WINDOW.

A novel show window which has the advantage of being devoid of glass reflections, thereby making its contents more readily visible, has lately been added to a Chicago shop. The window curves inward nearly three feet from a height of eight feet above the floor. A shadow box painted a dark color extends around the bottom to a height of nearly three feet, the outer wall being in line with the widest part of the window. The improved display, especially for women's garments, is said to justify the extra expense of the curved glass.

WORLD'S LARGEST FREIGHT
PIECE.

A Pennsylvania steel factory recently completed a rotary kiln for a cement plant in California. It is a tube 120 feet long, 12 feet in diameter and weighing more than 150,000 pounds. It had to be shipped by rail across the continent. Special cars were prepared for it which were provided with swivels to allow for the necessary movement as the big pipe was swung around curves. It required four of the largest sized flat cars to carry it and is said to be the largest single piece of freight ever handled in the world.

HIS FIRST TRIP IN A PULLMAN.

Do you remember your first ride in a Pullman? Of course, you do; and that's why you will sympathize with Henry the Ninth. He was on his way from Chicago to New York. He thought every passenger in that gorgeous coach was a millionaire.

Worse (or better) still, he was certain that the beautiful, smiling, blonde lady was Lillian Russell. Anyway, she looked like the fair Lillian. And when Henry obligingly got off the train to send a telegram for her, the signature convinced him. Can you blame the youth?

"But he saw New York" is the title of this delightful story. It is in the July Cosmopolitan Magazine.

Every time a man hears his name mentioned in connection with a political office he imagines that the world is growing better.

A Chicago editor has discovered that some of those German plots are almost as bad as a few George Cohan has written into his musical shows.

OFFERS LIFE TO NATION

At the age of eighty-four, Col. Paul Dobozy of West Plains, Mo., survivor of the Hungarian insurrection of 1849-49, of the war of France and Italy against Austria in 1859 and a veteran of the Civil War in this country, has offered his services and his life to the United States. He has asked permission of the government to establish a cavalry training station at West Plains, Mo.

He came to this country in 1862 with two nephews of Louis Kossuth and in 1863 organized a regiment of negro heavy artillery. After the war he became an engineer in the Ozark country and blazed the way for the old Kansas City, Fort Scott and Gulf railway, now a part of the Frisco system.

TRIES TO BOOST HIS HEIGHT

Patriotic Youth Has Clever Scheme, but It Is Detected by Recruiting Officers.

Albany, N. Y.—Trying to boost his 5 feet 3 inches up to the standard required for military service, Willis Hartman, a patriotic youth from Glenwood, near here, tried a form of elevation that almost got by the United States marine corps recruiting officers here.

Willis went through without a flaw until he stripped to be examined for scars when the doctor discovered several layers of adhesive plaster and a small cotton pad under each heel that gave a "French-heel effect" to the would-be warrior. When it was removed, he lacked one inch of meeting the required height.

"I don't want to be a slacker, so I tried my best to enlist," said Hartman, when he was rejected. "The scheme would be all right, too," he added, "if I could only make it stick."

WIRELESS FOR MOTORCYCLES

Invention of Marine Corps Captain Has a Radius of From 50 to 100 Miles.

New York.—Every motorcycle messenger in the United States army will be equipped with a private wireless outfit, with a radius of from 50 to 100 miles, if the invention of Frank E. Evans, captain in the marine corps, stationed on recruiting duty in New York, receives favorable consideration by the ordnance board.

Captain Evans' outfit weighs less than 12 pounds, and can be set up to receive messages in from one to two and a half minutes. It consists of a sending and receiving apparatus, a dynamo attached to the rear wheel and a 100-foot aerial constructed on the order of a steel fishing pole.

It is claimed for the invention that constant communication can be maintained with friendly air scouts and field stations.

CHICAGO BARS HORSE MEAT

Council Committee on Health Rules War Has Not Made Innovation Necessary.

Chicago.—Horse steaks for Chicago? Neigh, neigh!

The city council committee on health has ruled that the war has not made the innovation necessary, and therefore has refused to consider an application from Christ Scheer for a permit to open a shop dealing exclusively in the flesh of Old Dobbin.

"I feel," said Alderman Cullerton, "that we ought not to listen to a proposition of this kind now. The time is not ripe. Possibly later we may come to it, but it certainly isn't a necessary step now."

Give Potato Eyes to Farmers. Appleton, Wis.—Another step toward conservation of foods was projected here when E. W. Draper of the Sherman house, in conjunction with several other hotel men, entered into a contract to supply farmers of the county with the eyes of potatoes cut from "spuds" used at the hotels. These eyes will be used for seeds.

Lace Flag for U. S. Troops. Paris.—The woman lace workers of Velay have united in making a lace flag with the colors of the United States, and intend to present it to the first American regiment that comes to fight upon French soil. General Lafayette came from the region of Velay and the old chateau in which he lived still is standing.

—The patriotic meeting held at the M. M. I. Drill Hall, Friday evening, drew quite a large crowd. Much enthusiasm was manifested, the Paris band furnishing the music. Telling addresses were made with good effect by Hon. E. M. Dickson, Judge Denis Dundon and Mr. A. B. Hancock. The purpose of the meeting was to arouse patriotism, and secure Liberty Bonds. No bonds were asked for that night, but a number of bonds were called for Saturday at the Farmers' Bank, one man taking out \$7,000.

—Quite a number from here visited the County House Saturday, it being Donation Day and made glad the hearts of the inmates of that institution by numerous donations. Mrs. P. L. Dimmitt, was one of the number, on her return to town, and while her vehicle was standing in front of the grocery of Mr. Rufus Butler, the horse fell, expiring a few moments later. Mrs. Dimmitt was in the buggy at the time. It was thought at first that the horse had received some internal injury in falling, but, when the harness was taken from it, it made no effort to rise, expiring a few moments later.

UNCLE SAM'S MAPS AT A PREMIUM.

That Uncle Sam's topographic maps are appreciated by public-utility corporations is shown by the fact that telephone companies throughout the United States are constant purchasers. The companies send frequent orders to the Geological Survey, Department of the Interior, for its maps in lots of 250 or 500, and occasionally when some big contract has been landed as many as 1,000 maps are ordered at a time for the use of the engineers and line-men. Some electrical-supply companies keep complete sets of the maps of areas in States in which they expect to do extended work, and when they hear that contracts are to be let for such work they refer to these maps, and with the "lay of the land" before them can tell at a glance the character of the work that will be required and can make their bids promptly and intelligently. The telephone officials who are "using the maps extensively" state to the Survey that they are of "indispensable value" in their work.

CELEBRATION AT MAYSVILLE

On Sunday, June 17, the one-hundredth anniversary of the organization of the Maysville Presbyterian church, S. G. A., will be celebrated. The Rev. Dr. John Barbour is the present pastor, and he and the only two living former pastors, the Rev. Dr. G. M. McCampbell, and the Rev. Dr. S. B. Anderson, will be the principal speakers at the celebration. The celebration will continue through Tuesday evening, and addresses will be made by the Rev. Dr. Horace C. Wilson, of Lansing, Mich., and the Rev. Dr. W. C. Condit, of Ashland, Kentucky.

MATRIMONIAL.

HOLLADAY—DAUGHERTY.

—The home of Mr. Bruce Holladay and sister, Miss Mayme Holladay, on Pleasant street, was the scene of a pretty wedding at 6:15 o'clock Saturday evening, when their sister, Miss Besse Buckner Holladay, became the bride of Dr. Charles Garrard Daugherty. The ceremony which united these popular young people in marriage was performed in an impressive manner by Rev. Dr. Frank W. Eberhardt, of Danville, formerly pastor of the Paris Baptist church. The ring service was used, with double responses.

The bride, one of the most popular young women of Bourbon county, was beautifully gowned in white georgette crepe, and carried a French bouquet. The groom, who is widely known as one of the most successful physicians and surgeons in Central Kentucky, was attired in the conventional wedding attire of black.

The ceremony was witnessed by only the immediate members of the two families, Dr. James A. Orr, Dr. Daugherty's professional associate, and Mr. and Mrs. William G. Eaton, of Covington. After the ceremony, Dr. and Mrs. Daugherty left in their automobile for Winchester, from which point they took the C. & O. train for the East, where they will spend their honeymoon.

THE NEWS, in common with a host of others, extends hearty congratulations and good wishes to Dr. and Mrs. Daugherty for a long and happy wedded life.

FORD—WALLER.

The marriage of Miss Frances Mary Ford, of Georgetown, and Mr. R. Herndon Waller, of Paris, was solemnized Saturday afternoon at the First Christian church, in Georgetown, and was one of the most brilliant affairs of the season.

The maids and groomsmen entered from the side aisles. Miss Lucy Lees Ford, of Covington, was the maid of honor. The other attendants were Misses Bettie Muir, of Nicholasville; Louise Davis, of Midway; Mary Adams Talbot and Martha Ferguson, of Paris; Virgie Broadus, of Owenton; Margaret Haggin, Zillah Dawes and Frankie Allen Thompson, all of Georgetown.

After the ceremony, and receiving the congratulations and best wishes of a large crowd of friends and relatives Mr. and Mrs. Waller left for a honeymoon trip to points in the East. On their return they will be at home to their friends in Paris, where Mr. Waller is assistant secretary and physical director in the Bourbon County Y. M. C. A.

Mrs. Waller is one of the most charming young women in Scott county, the daughter of Mrs. De-weese Williams, and one whose friends and admirers are many in number.

HIGHFIELD—BATTERTON.

—The marriage of Miss Mary Virginia Highfield, of Lexington, and Mr. Roy Joseph Batterton, of Paris, will be a pretty event of June. The wedding will take place this evening at eight o'clock, at the Centenary Methodist church, in Lexington, the Rev. Thomas B. Roberts officiating.

The bride's sister, Miss Lilly Highfield, will be the maid of honor, and Mr. George Batterton, County Attorney of Bourbon, a brother of the groom, will be best man. The bridesmaids will be Misses Martha Stephenson, of Paris, and Lillian Haydon, of Lexington, and the groomsmen Mr. Robert Adair and Mr. Brooks Woodford, of Paris. The couple will leave after the ceremony for a honeymoon trip in the East, and on their return will make their home on the groom's fine farm near Paris.

The bride's uncle and aunt, Mr. and Mrs. Charles Talbot, of Columbus, Ohio; Miss Dora Widemeyer, of Cincinnati, and the bridegroom's parents, Mr. and Mrs. B. A. Batterton, and his brother and wife, Mr. and Mrs. George Batterton, and a large number of other relatives and friends from Paris and Bourbon county, will attend the wedding.

HOWE—BERRYMAN.

—The marriage of Miss Mae Howe, daughter of Mr. and Mrs. H. C. Henson, of Paris, to Mr. Emil G. Berryman, of Lexington, took place in the County Clerk's office in Lexington, Saturday afternoon.

Miss Howe went to Lexington, Saturday afternoon, where she met Mr. Berryman by appointment, and after securing a marriage license, the ceremony was performed. After the ceremony Mr. and Mrs. Berryman came to Paris, where they spent Sunday and Monday as guests of Mrs. Berryman's mother, Mrs. H. C. Henson, and Mr. Henson, returning to Lexington last night.

Mr. Berryman is a former resident of New York, where he had been in the hotel business for many years. He is at present assistant manager of the Phoenix Hotel, in Lexington, where he and his bride will reside in the future.

The bride is a charming young woman, a graduate of Bourbon College.

A Chicago editor has discovered that some of those German plots are almost as bad as a few George Cohan has written into his musical shows.

DEATHS.

ALLEN.

—The funeral of Mr. John Allen, aged sixty-nine, who died at his home near Jacksonville, Friday afternoon, of heart disease, was held at the residence of Mr. Herbert Smith, in Jacksonville, Sunday afternoon, at 2:30. The services were conducted by Rev. Dr. O. R. Mangum, pastor of the Paris Baptist church.

The burial took place in the Jacksonville Cemetery. The pall-bearers were: John Shropshire, B. A. Batterton, D. C. Lisle, Rufus Kenney, Frank Current and Edward Prebble.

Mr. Allen is survived by two brothers, James B. Allen, of Avon, Mo., and E. J. Allen, of Lexington; two sisters, Mrs. Margaret Bloom, of Lexington, and Mrs. Belle Smith, of Jacksonville.

NEAL.

—Information was received here Saturday of the death in McIntosh, Florida, of Mr. John Neal, a former resident of Bourbon and Clark counties.

Mr. Neal was a cousin of Messrs. Frank and Charles White, of Bourbon county, and of Mr. John Stewart, of Winchester. He married Miss Lou Barkley, a sister of Mr. Robert Barkley, of Fayette county, and of Mr. Everette Barkley, of Florida.

Mr. Neal was a farmer. He moved to Florida about forty years ago. His widow, one son, Berkley Neal, and one daughter, Hattie Neal, survive. One sister and several brothers also survive.

—Mr. M. M. Witherspoon, of Cincinnati, representing the Redpath Chautauqua Bureau, was a visitor in Paris last week. Mr. Witherspoon was en route from Cynthiana, where he had closed a deal for the engagement of his attractions there July 2 to 10. Mr. Witherspoon was in Paris several years ago in connection with the Associated Publishers of Cincinnati, who furnished illustrated magazine sections to the country papers.

ELD. REYNOLDS' WILL

In the County Court, Saturday, the last will and testament of the late Eld. L. H. Reynolds, who died some days ago at the home of his daughter, in Winchester, was admitted to probate and ordered recorded in the County Clerk's office.

The will is in Eld. Reynolds' own handwriting and is dated Oct. 1, 1912, and witnessed by John W. Jones and L. R. Henry. After directing payment of his just debts and funeral expenses he makes the following bequests:

To his three children, Isaac S. Reynolds, Mrs. L. T. Hagan and Mrs. Minta Hughes \$13,000 each; to Isaac Reynolds the home he now resides in; to Mrs. Hagan, house and lot on Lexington avenue, in Winchester; to Mrs. Hughes the farm in Montgomery county, at her death to descend to her two children, Bennett and Jesse Hughes. Ten thousand dollars in notes is to be loaned, and the interest paid to his widow annually and at her death, after making Mrs. Hagan equal with the other heirs, the balance is to be divided equally between the three children, I. S. Reynolds, Lida Hagan and Minta Hughes.

John W. Jones, Jr., is named as executor and trustee of the estate. Mr. Jones qualified with W. S. Jones as surety in the sum of \$30,000.

POSTAL GUIDES TO BE SOLD TO PUBLIC.

Postmaster J. Walter Payne is in receipt of a notification from the United States Postoffice Department at Washington that official postal guides will be given to the public soon at seventy-five cents each.

In the past it has been the policy of the department to give these out only to postoffices, but the confusion resulting from this custom has caused it to be abandoned.

The communication from the Postoffice Department says that the rule will mainly benefit the banks and other business places doing a mail order business, but will at the same time be an aid to individuals. Circulars giving full information and particulars concerning obtaining the books may be had at the Paris postoffice.

WESTERN UNION BUYS LIBERTY BONDS.

The Treasury Department issues the following:

The Western Union Telegraph Company has subscribed to \$2,500,000 of Liberty Bonds and in addition is conducting a nation-wide campaign among 24,000 of its employees to interest them in individual subscriptions.

TO AUTOMOBILE DRIVERS!

You can avoid accidents by being considerate; going slow when passing children; passing vehicles; approaching crossings; turning corners; stopping at railroad crossings and behind standing street cars; using your chains on slippery pavements. When in doubt go slow or stop! Always remember it is better to be safe than sorry!

RELIGIOUS.

—The Woman's Society of the Christian church will meet this afternoon in the church parlor at 2:30 o'clock.

TUBERCULOSIS NOT INHERITED, SAYS COMMISSION.

Science and a careful study of tuberculosis have long ago exploded the old belief that it is hereditary and always fatal in its results. This belief has caused many sufferers from the disease to have what doctors term "phthisophobia," or fear of consumption, which is a very effective aid to fatal results. Such a condition should be guarded against and cheerfulness inspired by the assurance that the disease may be cured in most cases if discovered in time and the simple rules of treatment observed.

Proper, well-cooked food, rest in open air day and night, if possible; clean surroundings, avoidance of late hours, dissipation and unduly long hours of labor, together with the help of an intelligent doctor, have worked wonders in the arrest, cure, and relief of consumption.

Write to Dr. W. L. Heizer, Secretary of the State Board of Tuberculosis Commissioners, at Frankfort, for information and literature.

WELDING STEEL AND RUBBER.

A new alloy has been perfected, by the use of which rubber can be solidly welded to steel and other metals with a joint of immense strength. The alloy has a stronger affinity for rubber than rubber has for itself—that is, when a sheet of rubber is welded between two sheets of metal by the use of the alloy, and a strain is applied to pull the sheets of metal apart, the rubber will part in the middle before it parts at either of the joints. This newly discovered alloy is of great value in electrical construction, where it is necessary to insulate different metals by applying a coating of rubber that will stick under all circumstances.

STOCK, CROP, ETC.

—Caywood & McClintock, of Paris, purchased one hundred barrels of corn from Mr. M. B. Lovell, at \$8 per barrel. They also bought a carload of mixed baled hay from Mr. Lovell at \$15 per ton. They also bought of E. F. Spears & Sons a pair of 2,700 pound mare mules, both extra good ones for \$600.
